

**LEGEND**

- PROPOSED TEMPORARY INJECTION LOCATION (ASSUMED 15 FT ROI)
- OPTIONAL INJECTION LOCATION (ASSUMED 15 FT ROI)
- MONITORING WELL
- CITY WELL

- NOTES:**
- Radius of influence (ROI) per injection location is assumed at 15 feet based on proposed Injection volumes and assumed soil porosity.
  - MW-15 (6" Injection/extraction well) assumed to have a 20' ROI based on approx. 34,000 gallon target Injection volume.
  - EHC Injection locations to be spaced 10 feet on-center.
